The Baptist Union of Great Britain has thirteen regional associations. Each regional association has a team of regional ministers and administration staff that support the local church pastorally, advise on mission and practical matters and organise beneficial training events.

Representatives of each association are part of the National Settlement Team which meets ten times a year to help churches looking for ministers to be put in touch with ministers and final year student ministers seeking settlement.

All the work of the regional associations is funded by Home Mission giving from local churches and individuals.
