

## Estate/Urban Churches

Written by Mission

---

A network of Baptist churches that are located in deprived and oppressed estates and urban settings.

Despite economic regeneration initiatives from Governments there are still huge challenges in many such areas and the Christian mission and presence is essential to bring community transformation and hope to individuals. This network is set up to bring the ministers and leaders together for mutual encouragement, sharing ideas, prayer and inspiration as churches seek to bring the light of Christ in the dark world.

To express interest in future events, please contact the [Mission Department](#).
