

Update: July 2019

Dear Friends

We are delighted to share this message from our Team Leader, Stephen Keyworth:

Over the last three months I have been supported by many prayers. I've known the love and care of many medical professionals who have shared their experience and expertise as they cared for me - but I've also known the love and care of God's people upholding me and my family in prayer.

But over the last few weeks my recovery has been startling in both its extent and speed and it has surprised many of those same medical professionals. Since the beginning of May I have progressed from being winched from bed to wheel chair to now walking without a stick. I have graduated from receiving help with all personal care to completely looking after myself and this last week on Wednesday I came home from hospital almost two months earlier than had been expected and certainly in a much better condition than had been expected.

So praise God for his healing and thank you for your prayers. For me there's still a long way to go and I need a further operation to repair the deformity in my skull - so as you praise God keep praying - thank you - your prayers really do make a difference and I appreciate them very much.

Crucible brochure

Christians across western culture are facing profound challenges and fresh opportunities. The long era of 'Christendom' is coming to an end. Crucible is for Christians with courage and imagination, who suspect that we need to think creatively about incarnating the gospel and planting new kinds of churches in emerging and diverse cultures. It offers training to equip Christians to follow Jesus on the margins. Click here for the [latest Crucible brochure with details of courses, venues and dates for 2019-20](#).

Supporting Pastoral Care

The Assure alarm-monitor wristband puts community at its heart. When the wearer triggers an alarm/alert the first point of contact is family or friends or neighbours - their community. They know the person and are best placed to investigate or escalate. The Assure has SOS alerts, Fall alerts and the unique 'check-in' alarm. If you haven't seen someone for a while and there are concerns over wellbeing, the online Movement Review feature enables you to check that the wearer is up and about, and okay. We regularly post visual reflections on our [Twitter](#), [Facebook](#) and [Instagram](#) accounts. These high quality images can be used for personal reflection and in churches, with our blessing. [Click here to find the current selection of images on our Flickr account.](#)
